CHESHIRE EAST SAFEGUARDING ADULTS BOARD

Multi-agency Safeguarding Adults Policy and Procedure

This multi-agency policy and procedure has been produced by Cheshire East Safeguarding Adults Board, in accordance with the statutory requirements of the Care Act 2014 and accompanying Statutory Guidance.

April 2015
Cheshire East Safeguarding Adults Board

All members and partner agencies accept responsibility for protecting vulnerable adults from abuse, endorse this policy and associated procedures and are committed to the values and principles that underpin them.

Purpose and scope of this policy

This multi-agency policy and procedure has been produced by Cheshire East Safeguarding Adults Board, in accordance with the statutory requirements of the Care Act 2014 and accompanying Statutory Guidance.

This policy is to apply to all adults who may be experiencing, or at risk of, abuse or neglect. The Care Act 2014 provides that a local authority must make enquiries or ensure others do so, if it believes an adult is at risk of abuse or neglect.

This duty applies to anyone aged over 18 who has needs for care and support (whether or not the local authority is meeting any of those needs) and as a result of those needs is unable to protect him / herself against abuse, neglect or the risk of it.

The aim of this policy is to improve practice among employees of all partner agencies in regard to the recognition, reporting and investigation of abuse of adults at risk.

Values and Principles

The work of the Board is based on the following vision:

*People in Cheshire East have the right to live a life free from harm, where communities:

• have a culture that does not tolerate abuse

• work together to prevent abuse

• know what to do when abuse happens*
The values of the policy are based on understanding and promoting peoples’ right to make decisions, the importance of maintaining dignity and respect and the celebration of diversity.

Cheshire East Safeguarding Adults Board believes that:

- People have the right to live their lives free from neglect and abuse
- Safeguarding adults is a shared responsibility of all organisations and agencies commit to holding each other to account
- The individual, family and community should be at the heart of safeguarding practice
- High quality multi-agency working is essential to good safeguarding
- We respect that adults have a right to take risks and that this will sometimes restrict our ability to act
- There must be a commitment to continuous improvement and learning across the partnership

Principles

All safeguarding work is underpinned by the following principles:

- **Empowerment** – Personalisation and the presumption of person-led decisions and informed consent.
- **In practice this means:**
  - Safeguarding adults is central to ensuring people receive a positive experience of the services offered by the organisation.
  - There are clear and accessible systems for individuals, users and carers voices/views to be heard and influence change
  - The organisation gives individuals relevant information and support around recognising and reporting abuse and the choices available to them to ensure their own safety
The organisation ensures that the public are clear about the roles, responsibilities and ways to contact those who work in safeguarding vulnerable adults

People should be able to say:

“I am asked what I want as the outcomes from the safeguarding process and these directly inform what happens.”

**Prevention** – It is better to take action before harm occurs.

Although agencies must work together to respond to potential abuse and provide protection to individuals, it is important to emphasise that prevention must always be the primary objective.

**In practice this means:**

- Organisations raise public awareness about safeguarding adults and how to avoid, identify and report it
- Robust procedures are followed to ensure that all staff and volunteers are safely recruited so that unsuitable people are prevented from working with adults at risk
- There is a system of leadership and accountability that monitors safeguarding systems.
- All staff are clear about roles and responsibilities in respect of job requirements in relation to safeguarding adults at risk.
- All staff have access to an appropriate “Whistle Blowing Policy” that enables concerns to be raised without fear of retribution.
- Lead responsibility for safeguarding adults is delegated to an appropriate member of staff.
- Safeguarding Adults is integrated into all the organisation’s contractual processes with clear expectations and reporting requirements to prevent harm, neglect and abuse of adults at risk
- The organisation has performance management systems that record and indicate the effectiveness and potential for interventions to prevent harm, neglect and abuse
• The organisation has safeguarding adults procedures in place that staff understand and implement

People should be able to say:

“I receive clear and simple information about what abuse is, how to recognise the signs and what I can do to seek help.”

Proportionality – Proportionate and least intrusive response appropriate to the risk presented.

In practice this means:

• The adult at risk is at the centre of all responses to allegations or disclosures of harm and all activity is based on their preferred outcomes or best interests

• The organisation has an approach of positive risk taking and defensible decision making in which the adult at risk is fully involved

People should be able to say:

“I am sure that the professionals will work for my best interests, as I see them and they will only get involved as much as needed.”

• Protection – Support and representation for those in greatest need.

In practice this means:

• The organisation has effective processes to enable it to identify and respond to concerns or emerging risks relating to adults at risk

• The organisation has processes for quality assuring decisions relating to concerns, alerts and referrals
• The organisation can demonstrate that consideration of mental capacity is part of the safeguarding adults process and where people lack capacity decisions are always made in their best interests

• Safeguarding Awareness training delivered to all staff and volunteers and opportunities are available to develop enhanced skills for those with specific role/responsibilities.

People should be able to say

“I get help and support to report abuse. I get help to take part in the safeguarding process to the extent to which I want and to which I am able.”

Partnership – Local solutions through services working with their communities. Communities have a part to play in preventing, detecting and reporting neglect and abuse.

In practice this means:

• Information is shared between organisations in a way that reflects its personal and sensitive nature. There are local information sharing agreements in place and staff understand and use them

• The organisation works with others in a ‘one team’ approach that that places the welfare of adults at risk above organisational boundaries

• The organisation’s representatives on SAB are senior level, strategic officers and are accountable for Safeguarding activity and for updating and sharing policy, procedures and information throughout the organisation

People should be able to say:
“I know that staff treat any personal and sensitive information in confidence, only sharing what is helpful and necessary. I am confident that professionals will work together to get the best result for me.”

**Accountability** – Accountability and transparency in delivering safeguarding.

**In practice this means:**

- The roles, responsibilities and lines of accountability of the organisation are clear so that staff understand what is expected of them and others

- The organisation recognises and acts upon its responsibilities to the Board and partner agencies for safeguarding arrangements

**People should be able to say:**

“**I understand the role of everyone involved in my life.**”

**Policy into Practice**

Cheshire East Safeguarding Adults Board recognises that the demands and governance of each partner organisation are different, and that organisations may achieve common outcomes in different ways. The Board will seek assurance that all partner organisations are fully committed to working together effectively to prevent abuse and neglect and to protect and provide support to adults who are at risk.

The Board will do this by requiring that:
• Each partner organisation will have safeguarding adults procedures that are in line with this policy and the role and responsibilities of the organisation.

• Safeguarding Adults procedures for each partner organisation must be endorsed by the Board on development and following review.

For this policy to work in practice, every partner organisation must accept individual and collective responsibility to ensure that they:

1. Promote good practice to prevent abuse and commit themselves to the underlying values and principles on which this document is based.
2. Encourage and permit staff to attend relevant safeguarding adult training and provide appropriate resources for staff to meet the requirements within this document.
3. Raise awareness of adult abuse issues within their own agency and the wider community.
4. Take timely and appropriate action to protect when suspected abuse is identified.

Types of abuse

The Board recognises that abuse may take many forms and its impact on the person concerned is what matters. Abuse may include:

• Physical abuse – including assault, hitting, slapping, pushing, misuse of medication, restraint or inappropriate physical sanctions.
• Domestic violence – including psychological, physical, sexual, financial, emotional abuse; so called ‘honour’ based violence.
• Sexual abuse – including rape, indecent exposure, sexual harassment, inappropriate looking or touching, sexual teasing or innuendo, sexual photography, subjection to pornography or witnessing sexual acts, indecent exposure and sexual assault or sexual acts to which the adult has not consented or was pressured into consenting.
• Psychological abuse – including emotional abuse, threats of harm or abandonment, deprivation of contact, humiliation, blaming, controlling, intimidation, coercion, harassment, verbal abuse, cyber bullying, isolation or unreasonable and unjustified withdrawal of services or supportive networks.

• Financial or material abuse – including theft, fraud, internet scamming, coercion in relation to an adult’s financial affairs or arrangements, including in connection with wills, property, inheritance or financial transactions, or the misuse or misappropriation of property, possessions or benefits.

• Modern slavery encompasses slavery, human trafficking, forced labour and domestic servitude. Traffickers and slave masters use whatever means they have at their disposal to coerce, deceive and force individuals into a life of abuse, servitude and inhumane treatment.

• Discriminatory abuse – including forms of harassment, slurs or similar treatment; because of race, gender and gender identity, age, disability, sexual orientation or religion.

• Organisational abuse – including neglect and poor care practice within an institution or specific care setting such as a hospital or care home, for example, or in relation to care provided in one’s own home. This may range from one off incidents to on-going ill-treatment. It can be through neglect or poor professional practice as a result of the structure, policies, processes and practices within an organisation.

• Neglect and acts of omission – including ignoring medical, emotional or physical care needs, failure to provide access to appropriate health, care and support or educational services, the withholding of the necessities of life, such as medication, adequate nutrition and heating

• Self-neglect – this covers a wide range of behaviour neglecting to care for one’s personal hygiene, health or surroundings and includes behaviour such as hoarding.

• Radicalisation – this is the process by which a person comes to support terrorism and forms of extremism that lead to terrorism. Adults at risk can be exploited by people who seek to involve them in terrorism or activity in support of terrorism.
Roles and responsibilities

All Health and Social Care Agencies who commission or provide services (whether in the public, voluntary or private sector) have a duty of care for adults at risk of abuse. All of these agencies, therefore, have a responsibility to take appropriate action to promote the quality of care provided to people, minimise risk and take speedy action within these procedures where abuse is suspected.

Cheshire East Safeguarding Adults Board

The board is a multi-agency forum for agreeing how the different services and professional groups will co-operate to safeguard adults at risk of abuse or neglect across the borough. To improve the outcome of safeguarding, the board will monitor safeguarding processes and ensure suitable mechanisms are in place to identify abuse or inadequate care, to support vulnerable people at risk and to facilitate the planning and implementation of joint preventative strategies. The Adult Safeguarding Board will help and support individual agencies in meeting their responsibilities by:

- Producing a Business Plan to provide a framework for all multi-agency activities within safeguarding.
- Producing a comprehensive range of publicity information in accordance with the Marketing Strategy.
- Producing a multi agency Training Strategy.
- Producing an Annual Report.

Adult Social Care and Independent Living Directorate, Cheshire East Council

The Council has lead responsibility for the enquiry of suspected abuse of vulnerable adults. At all times the department will work in partnership with Police and other agencies as necessary and appropriate.

The Directorate also has lead responsibility for the coordination of actions taken within multi agency procedures to cause enquiry to be made and protect people from abuse and neglect. In this capacity they arrange, service and chair Adult Safeguarding Strategy Meetings, Case Conferences and Reviews.
Health and Care Staff

Clinical Commissioning Groups
When concern is raised in relation to a commissioned health service, that identifies a service is not safe, the relevant Clinical Commissioning Group will ensure the commissioned service is reviewed in relation to breach of contract. The Clinical Commissioning Group will hold provider services to account if they are not supportive of Local Authority led safeguarding investigations.

Provider Health Organisations
Healthcare staff from across the area come into contact with adults at risk of abuse or neglect in a variety of settings. Health staff will be in a position to observe patient’s welfare and report any suspicions or suspected abuse; all organisations have a responsibility to alert concerns to the Local Authority. There is an expectation from all provider health organisation’s to participate in an equal and timely manner with the Local Authority. It is expected that local organisational policy will reflect the guidance within this policy document.

Residential Care Homes / Nursing Homes / Domiciliary Care Agencies
All providers have a duty of care for the people for whom services are provided. The duty includes having relevant policies and practices to prevent abuse occurring. If abuse does occur staff must record information and a referral must be made to the Adult Social Care and Independent Living Directorate of Cheshire East Council. The owner of an establishment must be informed as must the Care Quality Commission in accordance with internal procedures. There is an expectation that all residential care homes / nursing homes and domiciliary care agencies participate in a co-operative and timely manner with the Local Authority.

The Care Quality Commission
The Care Quality Commission is the independent regulator of health and social care in England. Their aim is to make sure better care is provided for everyone, whether that’s in hospital, in care homes, in people’s own homes, or elsewhere.
The Care Quality Commission regulates health and adult social care services, whether provided by the NHS, local authorities, private companies or voluntary organisations. They also protect the rights of people detained under the Mental Health Act.

The Commission make sure that essential quality standards are being met where care is provided and work towards the improvement of services. It promotes the rights and interests of people who use care services and has a wide range of enforcement powers to take action on their behalf if services are unacceptably poor.

Police

Consultation with the Police at the earliest possible point is essential when alleged abuse or neglect may be a criminal offence. It is important for the Police and the Council to formulate a collaborative approach identifying what each are to do. If the police establish a criminal act has been committed, the police investigation will take priority over all other on-going investigations. This process may not always result in criminal proceedings.

Early involvement of the Police will help ensure that forensic evidence is not lost or contaminated, and may prevent the alleged abused adult being interviewed unnecessarily on subsequent occasions. Any police investigation will be planned alongside managing and dealing with the health and social care issues.

Statutory Framework:

Care Act 2014

The Care Act 2014 sets out the legal framework for how all agencies should protect adults at risk of abuse or neglect. There is a legal requirement for local authorities to set up a Safeguarding Adults Board (SAB) in their area.

The main objective of a SAB is to assure itself that local safeguarding arrangements and partners act to help and protect adults in its area who:
• have needs for care and support (whether or not the local authority is meeting any of those needs) and;
• are experiencing, or at risk of, abuse or neglect; and
• as a result of those care and support needs are unable to protect themselves from either the risk of, or the experience of abuse or neglect.

Mental Capacity Act 2005

The Mental Capacity Act 2005 sets out a legal framework for how all organisations are required to respond to people who lack the capacity to make some decisions.

The Act also protects the liberty of people who lack capacity and are in hospital, residential care and some types of supported housing.
Safeguarding Board General Procedures

There are some procedures that apply in the same way to all organisations. These have been developed and agreed by the Board and organisations will need to ensure that their own organisational procedures are not in conflict with any of the Board’s General Procedures. These are attached as appendices:

- Safeguarding Adults Review
- Person in Position of Trust
- Large Scale Enquiry
- Self Neglect

The safeguarding procedures of all partner organisations will reflect the requirements of the organisation but should include at least:

Roles and responsibilities

Raising concerns

Responding to concerns

Decision making process

How to conduct/participate in a safeguarding enquiry

Who is involved in safeguarding enquiries

Establishing the outcomes wanted by the adult at risk

Involving the adult at risk and their family

Advocacy

Responding to historical abuse allegations

Allegations against members of staff
